

SHIRLI WILLIAMS

London, England | Shxrlwilliams@gmail.com | linkedin.com/in/mofe-williams

Summary

2026 Computer Science graduate (BSc Hons, 2:1, Queen Mary University of London) with software engineering and project management internships at BNY Mellon and Publicis Sapient, and early UX experience at PwC. Works in Python, JavaScript, TypeScript and SQL, with hands-on experience in Angular front-end development, RESTful APIs and JSON, Agile delivery with Jira, and user-centred design in Figma. Works well across technical and non-technical teams, with strong communication and a track record of leading people and projects. Seeking graduate software engineering, technology and product opportunities.

Technical Skills

Languages & Frameworks: Python, JavaScript, TypeScript, SQL, HTML, CSS, SCSS, Angular

APIs & Data: RESTful APIs, JSON, regex, data analysis

Tools: Git/GitHub, Jira, Figma, Microsoft Office

Practices: Agile ceremonies, UI/UX design, design systems, requirements analysis, technical writing

Professional: Project management, stakeholder management, presentation skills, cross-functional collaboration

Professional Experience

Software Engineering Intern

06/2024 to 08/2024

Bank of New York Mellon

- Migrated UI components to Angular, TypeScript and SCSS, learning Angular and TypeScript from scratch
- Built a user information collection page using regex, coordinating tasks with the team through Jira
- Contributed to Agile ceremonies that kept the team aligned and delivery efficient

Project Management Intern

06/2022 to 08/2022

Publicis Sapient

- Built the front end of a self-building, AI-powered ERP dashboard integrating multiple company accounts to speed up transactions, focusing on JSON and RESTful APIs
- Led a cross-functional team to deliver a working prototype, presented to company executives
- Completed intensive training in Agile project management and digital business strategy

UI/UX Work Experience (Sixth Form Programme)

06/2017 to 09/2017

PricewaterhouseCoopers

- Created interface mock-ups and wireframes in Figma
- Used GitHub for version control and contributed to design system discussions
- Took part in client-facing workshops and design thinking sessions to gather insights for user-centred design

HR Assistant

09/2021 to 05/2022

Antai Fintech Global

- Coordinated recruitment from interview scheduling through onboarding at a fintech firm
- Maintained accurate HR records in line with internal policies and compliance requirements

Leadership & Community

President

09/2021 to 08/2022

Queen Mary African Caribbean Society

- Designed sponsorship packages of up to £20,000 and sold them to partners including UBS and Credit Suisse, raising over £80,000
- Rebuilt the society after COVID-19, growing membership from fewer than 10 to over 350 students

- Collected and analysed student feedback to shape discussions and events
- Represented BAME students to university staff and student bodies, collaborating on inclusion initiatives

Additional Experience

Festival Bar Staff & Management

03/2017 to 08/2021

Host Staffing Agency

- Managed stock and coordinated bar teams at large-scale festivals and events, maintaining high service standards under pressure across varied venues

Waitress & Barista

06/2019 to 08/2021

Rude N Boomin

- Delivered fast, friendly service in a busy hospitality setting, handling customer enquiries and payments

Education

BSc (Hons) Computer Science – Second Class Upper Division (2:1)

12/2026

Queen Mary University of London

London

A-Levels: Mathematics (A), Physics (A), Fine Art (A)

2019

Harris Academy Greenwich

London
